## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-32, drawn to a method for extracorporeal blood therapy, classified in class 604, subclass 4.01.
  - II. Claims 33-69, drawn to a dual-lumen catheter with one extending distally further than the other, classified in class 604, subclass 6.16.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions in Group I and Group II are related as process and apparatus for its practice.

The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the method does not require all the claimed limitations of the catheter, namely, that one of the lumens of the dual-lumen catheter extends distally farther than the other. Therefore, the claimed method may be practiced by a different catheter than the one claimed in Group II.

Furthermore, the catheter of Group II may be used in other fluid withdrawal and return procedures that do not require the insertion of the catheter near the heart.

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 3761

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
